QUALITATIVE RESEARCH

Greetings from Sri Narayani College of Nursing!

ABOUT US:-

Sri Narayani College of Nursing is located at **SRIPURAM**, the Golden Temple - Vellore, Tamilnadu, South India. Sripuram, The Golden Temple is a spiritual oasis & an architectural marvel.

Sri Narayani peedam was established by

SRI SAKTHI AMMA in 1992, when Amma

proclaimed to be the avatar of Goddess Sri Narayani. Sri Narayani College of Nursing started to sculpture the Nursing students as professionals, with the motto, Service with Love, in the year 2006 by the Divine blessings of **"SRI SAKTHI AMMA"** to empower the women's education under **SRI SAKTHI AMMA HEALTH CARE TRUST**. This trust embarked on its remarkable journey by providing health services with 300 bedded multispecialty hospital Sri Narayani Hospital & Research Centre and 3 outreach clinics.

INTRODUCTION:

Qualitative Research is a form of inquiry that analyze information conveyed through language and behaviour in natural setting. It is used to capture expressive information not conveyed in quantitative data about beliefs, values, feelings and motivations that underlie behaviours. Qualitative methods derive evidence from a variety of disciplines and traditions. They are used to learn directly from patients and others, what is important to them to provide the context necessary to understand quantitative findings. Qualitative inquiry has been championed as a

way of "reaching the parts where other methods cannot reach."

State Level conference

AIM

The aim of this conference is to foster and equip the participants with current knowledge and skills to build their competencies in qualitative research.
